

Date: 29 April 2022

**IMPACT**

In this challenge, more than 30 change makers from all over the world collaborated for 8 weeks to build the AI solution

# The Project:

## Creating an Automated Redaction Wizard That Utilizes Optical Character Recognition in AI

### CERTIFICATE OF ACHIEVEMENT

THIS IS PRESENTED TO

**Ashwath Shetty**

**| Lead ML Engineer**

For collaborating in the Omdena AI challenge with Redactable, a startup specialized in providing document redaction services. The team built a document reduction pipeline that included collecting, processing, and labeling a custom data set, training and testing multiple state-of-the-art NLP models, and building a training pipeline allowing the model to improve its performance over time.
